

# MUSIC FOR YOUR WEDDING

Because the marriage rite often takes place within the celebration of the Eucharist, music selections may have themes of Christian love, joy and community as well as specific wedding themes. The use of some hymn/songs which are familiar to the assembly will enable them to have a more significant part in the marriage ceremony.

Music is the liturgy of the Church and is never an end in itself, but a means to an end: to glorify God. A song may have a special significance for the couple, expressing their personal relationship of love for each other. Such songs are not appropriate at a communal celebration if it does not foster the worship of the entire community at the same time. This type of song, even if it is a favorite, is best reserved for the wedding reception or dance.
